

FREE CONTINUING EDUCATION FOR REGISTERED  
NURSES, SOCIAL WORKERS AND CASE MANAGERS  
**Weaving Mental Health with Physical Health**

**SPEAKER ELAINE BRUNER, MSN, RN-BC**

We will explore how physical and mental health care must be addressed so that individuals can experience improved self-management plus a reduction in ED visits and re-hospitalizations. Our focus will be on integrating components resulting in a comprehensive approach to patient care across the continuum. The goal is a quality patient/customer experience, improved care, with cost savings.
